

PRADEEP KUMAR

Full Stack Developer

Greater Noida, Uttar Pradesh | 9667454224 | pk3840931@gmail.com | linkedin.com/in/pradeep58 | github.com/PKG615

PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science graduate with hands-on experience in web development using JavaScript, TypeScript, Python, React, Angular, Node.js, Express.js, FastAPI, and MongoDB (MERN/MEAN Stack). Skilled in building responsive, user-friendly web applications and RESTful APIs, containerizing and deploying services with Docker, AWS, Render, and Railway, and maintaining CI/CD pipelines with clean, maintainable code. Experienced in Agile development environments, unit testing, and cross-functional collaboration. Seeking a Full Stack Development or Web Development role to contribute technical skills to innovative projects in a growth-oriented team.

CORE COMPETENCIES

Programming Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend Technologies: React, Angular, Tailwind CSS, Bootstrap, Responsive Web Design

Backend & Database: Node.js, Express.js, FastAPI, MongoDB, RESTful API Development, MERN/MEAN Stack

Cloud & DevOps: AWS, Docker, CI/CD, GitHub Actions, Render, Railway, Heroku

Developer Tools: Git, GitHub, Postman, Visual Studio Code, npm, Linux Command Line, Jest

AI-Assisted Development: GitHub Copilot, ChatGPT, Claude — for code review, debugging, and productivity

EXPERIENCE

Software Developer | Tamar Software, Greater Noida, IN — Jan 2026 – Present

- Develop and maintain HTML and Tailwind CSS components for customer-facing dashboard and reporting features.
- Write and maintain unit tests using Jest, contributing to improved code quality and reduced bug count.
- Participate in daily stand-ups, sprint planning, and code reviews as part of an Agile development team.
- Fix bugs and implement feature enhancements based on user feedback and product requirements.
- Collaborate with senior developers to follow best practices in code organization and documentation.

Software Development Intern | Codecluse, Chennai, IN — Jun 2023 – Aug 2023

- Assisted in developing HTML and Tailwind CSS components for a customer dashboard and reporting module.
- Supported unit testing efforts using Jest to help identify and reduce bugs before release.
- Joined daily stand-ups, sprint planning sessions, and code reviews to learn Agile development practices.
- Helped troubleshoot reported issues and implement small feature enhancements under senior guidance.

TECHNICAL PROJECTS

E-Commerce Web Application — Jan 2024 – May 2024

- Built a full e-commerce platform using HTML, CSS3, and JavaScript with product catalog and shopping cart functionality.
- Implemented user authentication and integrated the Stripe API for secure payment processing.
- Designed a responsive UI with Bootstrap and CSS3, ensuring consistent experience across devices.
- Deployed the application on Heroku with continuous deployment configured via GitHub Actions.

EDUCATION

Bachelor of Science in Computer Science — Dec 2024

University of Vinayaka Missions Research Foundation, Salem | GPA: 8.3/10.0 | Dean's List 2024

Sep 2023 – Dec 2025: Completed final year coursework and capstone project while pursuing self-directed upskilling through certifications in IoT, Cyber Security, and modern frontend frameworks (see below).

CERTIFICATIONS AND TRAINING

- NPTEL – Internet of Things (IoT), 2023
- Udemy – Responsive Web Design Course, 2022
- Learning React Fundamentals Course, 2023
- The Drop – Cyber Security, 2024
